

Table of Contents

O. Raiman & B.C.Williams	1
<i>Caricatures: Generating Models of Dominant Behavior</i>	
A.Y. Levy, Y. Iwasaki &H.Motoda	7
<i>Relevance Reasoning to Guide Compositional Modeling</i>	
K.D. Forbus & B. Falkenhainer	22
<i>Self-Explanatory Simulations: Scaling up to Large Models</i>	
D.S. Weld	36
<i>Automatic Selection of Bounding Abstractions</i>	
B. Falkenhainer	44
<i>Modeling without Amnesia: Making Experience-Sanctioned Approximations</i>	
P. Bose & S.A. Rajamoney	56
<i>Compositional Model-Based Design of Physical Systems</i>	
D. Hibler & G. Biswas	68
<i>Thought Experiments as a Framework for Multi-level Reasoning</i>	
J. Rickel & B. Porter	82
<i>Automated Modelling for Answering Prediction Questions: Exploiting Interaction Paths</i>	
D. Neville & L. Joskowicz	96
<i>A Representation Language for Conceptual Mechanism Design</i>	
E. Sacks & L. Joskowicz	109
<i>Model-based Kinematic Simulation</i>	
T. Kiriyaama, T. Tomiyama & H. Yoshikawa	124
<i>Building a Physical Feature Database for Integrated Modeling in Design</i>	
I. Aran & J. Hunter	139
<i>Representing and Reasoning about Naive Physiology</i>	
M.H. Lee & A.R.T. Ormsby	155
<i>Qualitative Modelling of Electrical Circuits</i>	

H. Akkermans	170
<i>Discrete and Continuous Time in Physical Systems</i>	
J. Lunze	183
<i>Qualitative modelling of Continuous-Variable Systems by Means Of Nondeterministic Automata</i>	
Z. Cui, A.G. Cohn & D.A. Randell	202
<i>Qualitative Simulation Based on a Logic of Space and Time</i>	
A. Nigam & R. Bhaskar	218
<i>Differential Equations as Enablers of Qualitative Reasoning using Dimensional Analysis</i>	
B. Bredeweg, C. Schut, K. van den Heerik & M. van Someren	236
<i>Reducing Ambiguity by Learning Assembly Behaviour</i>	
H. Kay & B. Kuipers	252
<i>Numerical Behavior Envelopes for Qualitative Models</i>	
M.R. Vescovi & L. Travé-Massuyès	268
<i>A Constructive Approach to Qualitative Fuzzy Simulation</i>	
R. Leitch & Q. Shen	281
<i>Being Committed to Qualitative Simulation</i>	
J.M. Vinson & L.H. Ungar	294
<i>Fault Detection and Diagnosis using Qualitative Modelling and Interpretation</i>	
G. Biswas, X. Yu & K. Debelak	302
<i>A Formal Modeling Scheme for Continuous-Valued Systems: Focus on Diagnosis</i>	
H-K Kim	322
<i>Extending the Contained-Stuff Ontology with Geometry</i>
